Your Honor,

8/31/23

USV Perez 22/08/23 JSK

I find the definition of willfulness as operating with bad intent to be too vague to reason about. What is "bad"? And by whose judgement must it be "bad"? Certainly many crimes are committed by people who do not think they are doing something bad, and yet they are doing something bad by someone else's judgement. Can you help make this more clear?

Thank You
